

Non Seating Mobile Table Specification

Features

- Mobile Shape Units from ALBATROSS are the perfect solution for those who prefer to use separate chairs in their venue. Built on a solid 14-gauge steel frame with tamper-free hardware, tabletops are protected with a high pressure laminate top and a phenolic backer sheet making them power washable. Our caster lift-off safety feature prevents the table from moving while open. Storage latch release handles are easily accessible from both sides of the table without having to reach in. The storage latch automatically locks when folded for safety. Tables operate smoothly and safely thanks to the EasyLift system. The self-leveling automatic down lock engages at a partially opened position for safe, easy cleaning and again at the fully opened position.

others
