

ALBATROSS MFG — SMC20 SPECIFICATIONS

Product Overview

The ALBATROSS MFG SMC20 Secure Metal Drawer is a heavy-duty, dual-drawer steel storage unit designed for high-use institutional and residential environments. Cold-rolled steel construction, centralized locking, and full-extension drawer access ensure durability, security, and reliable daily use

Technical Specifications

- Manufacturer: Albatross MFG™
- Model Number: SMC20 (Silver & Black Edition)
- External Dimensions: 52 in W × 18 in D × 9.5 in H
- Internal Drawer Space (Per Drawer): Available upon request
- Material: Heavy-gauge, cold-rolled, furniture-grade steel
- Finish: High-heat cured, scratch-resistant powder coating
- Color Scheme: Metallic Silver body / Industrial Black accents
- Weight Capacity: 100 lbs dynamic load per drawer
- Suspension System: Full-extension ball-bearing telescoping slides
- Locking Mechanism: Central pad-lockable hasp securing both drawers
- Engineering & Design Features
- Centralized Security: Single reinforced steel hasp secures both drawers with one padlock.
- Pest-Proof Structure: All-steel, multi-welded construction eliminates gaps and crevices.
- Safety-Contoured Edges: All corners and edges are ground smooth for user safety.
- Precision Access: Full-extension slides provide complete drawer visibility.
- Stay-Closed Tension: Internal retention prevents drawers from rolling open.
- Industrial Durability: Powder-coat finish resists chipping, corrosion, and sanitation wear.
