

TOBAY COLLECTION

Coordinated Outdoor Sling Seating

Collection Overview

The Tobay Collection by Albatross MFG is a fully coordinated line of commercial-grade outdoor sling furniture designed specifically for poolside, beachfront, and high-traffic recreational environments.

Engineered for performance and visual consistency, the collection features a unified aluminum frame profile, durable sling construction, and consistent finish options across all models. Each piece is designed to function independently while maintaining a cohesive appearance when installed as a complete set.

The Tobay Collection provides flexible seating solutions ranging from full-length chaise lounges to compact reclining chairs and stackable seating, making it ideal for a wide range of outdoor applications.

Included Models

Model	Description	Typical Use
OT009	Chaise Sling Lounge (76")	Full-length relaxation
OT011	Adjustable Sling Lounge Chair (36")	Compact reclining seating
OT010	Stackable Sling Chair	Dining and general seating

Key Collection Features

- Commercial-grade aluminum construction (0.8 mm wall thickness)
- Fully welded frames for strength and durability
- Weather-resistant sling fabric designed for outdoor use
- Corrosion-resistant for pool and coastal environments
- UV and moisture resistant materials
- Low-maintenance and long service life

Available Finishes

Frame: Matte Black, Dark Bronze, Graphite, Sand
Sling: Taupe, Gray, Blue, Red, Sand (custom options available)

Design Consistency Statement

All models within the Tobay Collection are manufactured using consistent materials, frame geometry, and sling systems. Variations in size are designed to meet functional needs while maintaining a uniform and cohesive appearance across the installation.

TOBAY COLLECTION

Model OT009 – Chaise Sling Lounge

Product Overview

The OT009 Chaise Lounge is a full-length commercial sling lounger designed for poolside and high-use outdoor environments. The unit features a durable aluminum frame and multi-position reclining back for comfort, longevity, and ease of maintenance.

Specifications

Category	Specification
